Until 2019, Badoo is available across 190 countries with 47 languages and attracts above 410 million, genuinely making this app worldwide. With the availability of website and app platforms, users can use Badoo interchangeably by one account. Thanks to the easy-to-use design, everything will be right at your fingertips, and you will have an account in just 10 minutes. This seems to be the main contribution to the high number of installs by youngsters around the world. Overall, Badoo Mod Apk is the latest app developed by Badoo corporation for IOS and Android. Besides, it is recommended for those who are still finding their life partner by many users. So, let's see what features Badoo has and how to use it! Badoo Sign Up! The signing up process at Badoo is not tricky. Firstly, you fill your personal information in such as first name, gender, birthday, city, and what you are opting for (dates, chat, friendship). The app also requires you to upload your photo, but you can skip it until the process finishes later. After that, there is an account verify link sent to your email. When you verify your email, you can begin to use Badoo. As you can see in some other dating apps, you have to do the personality test in the registration to find matches. But Badoo does not need that information so that it will take you directly to your profile dashboard. Keep in mind that you can just enjoy all the advantages of the Badoo account once your email is verified, as it is the first step when signing up. On the other hand, you can use your phone or connect Badoo with a social media account to confirm your identity. To see whether you become a verified member or not, there will be a blue checkmark under your profile picture. Badoo allows every user to see profiles with each other without blurred pictures. Therefore, you might not do some particular tasks, including purchase coins, play a game, or boost your popularity, if you do not upload at least a picture. In the verification process, you must take a photo of yourself in the pose that Badoo gives you in the sample image previously. Then, you are permitted to submit your photo to the Badoo team, and the temporary lock-down is removed. It is evident that the photo verification process is so strict that Badoo can make sure safety for all members. And in case you do not pass it, you will be obviously locked out of this dating app. Badoo Features Specifications Developer: Badoo Category: Social Released: 17th December 2010 Updated: 10th August 2020 Current Version: 5.203.1 Requirements: 5.0 Badoo Encounters The Encounters allows you to search for matches easily and quickly. There will be a variety of features and things to explore in the app so that you can make new friends as many as possible on the go. Special Features Badoo Mod Apk has some unique features and games which are really interesting. However, there is still a shortcoming. It is said that this app only caters to those who look for hookups or casual dates. In other words, most members based on appearance to choose without looking at viewpoints, interests, or personality. Profile Score: Other users can rate your photos. Your profile becomes more visible when you get a higher score. Visits: You can check who viewed your profile with this feature. Games Feature Gifts: You can buy gifts for other members by your credits and use emojis to attract them as well. Lookalikes: Badoo will decide who you lookalike like by using your photo. FAQs About Badoo What Can I Do If There Is Someone Violating the Badoo Terms & Conditions? In this case, you can directly report violators to the Badoo team. More specifically, you will fill out the Feedback page by providing examples of abuse actions or violations that other users did. From that, Badoo has enough evidence to figure out the problem. Otherwise, you can come to the profile of those users and find the Report Abuse option. Then, you have to type a detailed complaint before submitting it. Can I Unregister My Profile from Badoo? Yes, you can unregister yourself from Badoo in the Settings section. Here, you will see Delete Profile and choose that one. After clicking, Badoo retains your account for about 30 days. Badoo is one of the online dating apps that possess complicated photo verification, but it is still likely that fake profiles can crack the platform. To ensure the safety of female users, you should ask for a selfie photo from your chatting partner. What Is Included in Badoo Gifts? Gifts usually are icons bought through credits. They are relatively similar to the real gifts. For example, you can buy flower stickers, which is equivalent to give your counterparts flowers. Honestly, these gifts are used to catch the attention of other users. Can I Find Out Someone Likes Me on The Badoo? You can go to the Liked You folder to see people voting. Yes, for you when they see you in Encounters. However, this function is just available for the Premium account. How Can I Get the Badoo Secret Awards? You can get awards by having the most conversation or achieving the highest score with your profile. Secret awards are usually hidden as they are personal badges each user can obtain. Therefore, they will not appear until you can get any achievement. The Final Sayings Overall, Badoo Mod APK gets a very high overall grade for customer satisfaction, value for the price, ease of use or safety, and anti-scam. It is recommended to begin with a free account instead of jumping into premium membership straight away. With many unique features, Badoo is doing so well with the utmost efficiency. Although this app seems to be not appropriate for those looking for a lifetime partner, it is still worth your time if you are searching for a casual and fun relationship.
